WORK EXPERIENCE

Baird Holm

September 2025 – Present

IT Help Desk Specialist

Omaha, NE

- Maintain a comprehensive centralized technical documentation manual, establishing standardized troubleshooting workflows and internal IT knowledge references for the firm.
- Resolve complex hardware, software, and connectivity issues for legal professionals in a fast-paced environment.
- Manage the full lifecycle of IT assets, including procurement, tracking, and auditing of inventory utilizing ManageEngine ServiceDesk.
- Lead the deployment and configuration of IGEL thin-client environments and MDM solutions using Universal Management Suite (UMS) and Ivanti.
- Executed technical setup and configuration for the Lincoln office expansion, deploying workstations, thin clients, and printers.

TECHNICAL PROJECTS

Automated Hybrid Identity & Azure Cloud Infrastructure

August 2026

[View Project](#)

- Provisioned a Windows Server 2022 domain controller with structured departmental OUs and automated user creation via PowerShell scripts.
- Configured Microsoft Entra Connect Sync to connect local Active Directory accounts with Microsoft Entra ID.
- Resolved hypervisor NAT routing, local DNS forwarders, and IE security policies to enable secure outbound HTTPS cloud sync.
- Managed UPN routing fallbacks and validated real-time identity attribute synchronization across hybrid directory environments.
- Enforced least-privilege administrative access by configuring Microsoft Entra ID Role-Based Access Control (RBAC) and managing on-premises Active Directory security groups.
